## Joreword

There is high authority for it, that of making of books there is no end. Many cook books might easily be a weariness to the flesh; but this little book goes forth confident of a welcome. It does not profess to be a book on cookery; it is what is far better, a unique collection of tried and tested recipes, many of which have been handed down from one generation to another and have never before been in print. They have been contributed by club members, many of whom have generously brought forth from cherished old manuscript books, written by hands long vanished, the most favorite family formulas for compounding things good to eat. There is a delightful personal quality about these recipes, and it is interesting to see how the recipes for the same dish vary.

It is a beautiful demonstration of the fact that club women are the very best home makers. They not only have their useful fingers in many public pies, but they look well to the ways of their own households.

The income from the sale of this Book of Recipes is to be used for the purchase of Club china and for other special objects, so that not only those who contributed their choice recipes, but each one who buys a copy, will have a personal share in adding to the beauty and comfort of this beloved club.

## Jutroductiont

Our most cherished possessions are apt to be the family heirlooms, the furniture, the hand-made quilts, the old laces of our great-grandmothers. We learned to care for them first, because they were grandmother's; and then we began to learn and understand their worth and their beauty.

Among the personal records, which we have learned to regard as so valuable, can be found hand-written receipt books containing those priceless recipes which were perfected in some one home and exchanged between friends and neighbors.

We are pcrmitting, in many places, valuable papers and homely records of family life to be destroyed and lost. Of the interesting committees in some clubs are those callcd the Landmark Committecs, whose duty it is to preserve the history and record of the fast-growing town or community, its landmarks, whether these be individual or public. This work should be encouragcd and commended.

There should be the same measure of congratulation given to any club which is preserving for us those valuable, tried and true recipes, which have been used by the most notable housekeepers of a community. Philadelphia has a reputation for good cooking, and we arc all glad to welcome a contribution in the actual classics of this particular form of literature. Can there not be classic recipes as there are classic poems, and for the same reasons?

In our search for the scientific basis of the art of cooking, in our study of its chemistry and physics, we must never lose sight of the fact that no matter how much we may know as to why baking powder or yeast act as they do, it is of little avail unless our knowledge enables us to make a good muffin or good bread each time. Recipes are but the worked-out proportions which will produce a desired result. Without them we would each have to solve the problem anew for ourselves, and today we have not time. Therc are other more necessary things to do.

So we welcome this little book from a club of women noted among clubs and among women for their good works of many kinds.

> Helen Louise Johnson, Chairman, Home Economics Department, General Federation Women's Clubs
"To be a good cook means the knowledge of all herbs, fruits, balms and spices, and all that is healing and sweet in fields and groves and savory in meats. It means carefulness, inventiveness, watchfulness, willingness and readiness of appliance. It means the economy of your great-grandmother and the science of modern chemistry. It means much tasting and no wasting; it means English thoroughness, French art and Arabian hospitality. It means, in fine, that you are to be perfectly and always, ladies, 'loaf-givers,' and you are to see that everybody has something good to eat."-Ruskin.

## ※ecipe for an Jotal Club

Take two parts of desire for a larger living, or what we term culture, and two parts of intelligent interest in the vital questions of the day, and mix them with enough sociability to make a light sponge, and set it away to rise. When it has risen to about twice the original bulk, add some carefully picked officers and directors-washed in the waters of self-sacrifice and plentifully dredged with perseverance. Then add one part civic work, or as much as your town (or state) requires, and one part philanthropic activity; allow a gospel measure of the genial spirit of reciprocity for sweetening, and cream it up with fresh, rich thought and pour it in; add enough of the milk of human kindness to make a smooth batter. Take a whole heart full of enthusiasm, and dilute it with a little common sense, and when the alkali of the enthusiasm unites with the acid of common sense in a foaming mass-stir it quickly into the mixture. Then add your spices-womanliness, tact, humor, broad-mindedness and talent -with a dash of difference of opinion.

Now take a dozen fresh committees, and beat them up well-beat them up until they are stiff enough to stand alone, and toss them in; then throw in your afternoon programs--not too full, as they must have room enough to swell up, with animated discussion. Lastly add your flavoring-Robert Browning's extract of optimism, though some prefer Emerson's. There is also a new article on the market, which many use and consider equal to optimism, known as Fletcherism; but any good optimism will do.

Now beat the whole up well with individual effort-and on this the whole success of the club depends. When thoroughly beaten, pour it into a large vessel of opportunity, which has been previously well greased with Roberts' Rules of Order to keep it from sticking, and set it in a comfortable clubhouse for from one and a half to two hours-it depends upon the temperament manifested. Test it by inserting a splint from the broom of experience, which splint, when the club is done, must come out clean and shining. When it has cooled a little, make an icing of afternoon teas, lectures, and various entertainments, and spread thickly over the top. This will make a feast of reason and a flow of soul for about one hundred members. Serve it once a week or every two weeks.

Woman's Club, Phœnixville, Pa.

To make your needy bread, and give them life.-Pericles.

## BREAD

| 1 quart milk | 4 tablespoons sugar |
| :--- | :--- |
| 1 quart water | 2 tablespoons lard |
| 1 tablespoon (heaping) salt | 1 yeast cake |

Scald the milk and turn into the bread pan; add the salt, sugar, and lard; stir until melted; add the water (lukewarm), then add the yeast cake, which has been dissolved in lukewarm water. Then add enough flour to make a batter, beat thoroughly for fifteen minutes, or until batter is full of air bubbles; then add enough flour to make a dough. Take it out on a baking board as soon as it is stiff enough to do so, and knead quickly and lightly for 45 minutes. Use as little flour as possible, just enough to keep it from sticking to the board or hands. If a bread mixer is used, less time is required than when kneading with the hands. Now put it back into the bread pan, cover, and let stand in a warm place until morning; it should then have more than doubled its bulk. Mould into loaves, knead each loaf, put into greased pans, and stand away until light. Bake in a moderately quick oven for 1 hour and 10 minutes.

Mrs. H. S. Prentiss Nichols

Mould into rolls the size of walnuts. Place far apart in well-greased pans, protect from draft and let rise \(1 / 2\) hour, or until light. Glaze with white of egg diluted with water. \section*{CINNAMON BUN}

2 tablespoons sugar
\(1 / 2\) teaspoon salt
1 tablespoon (heaping) lard
3 cups milk and water (scalding) 2 yeast cakes
2 eggs
2 cups granulated sugar
Flour
Seedless raisins and currants
Nutmeg and cinnamon

2 eggs
2 cups granulated sugar
Flour
Seedless raisins and currants Nutmeg and cinnamon

Put sugar, salt and lard into a four-quart bowl. Pour over it milk and water. When cool add yeast cakes dissolved in 1 cup of lukewarm water and stir in enough flour to make a rather stiff batter.

When it rises two thirds of the way to the top of the bowl, stir in eggs beaten well into sugar and a little nutmeg, and add a little more flour. When it rises to the top of the bowl, knead with a little flour. Take off a portion a little larger than the fist and roll out on the board about one half inch thick. Spread thickly with soft butter, and about three-quarter inch thick with dark brown sugar; cover with seedless raisins and currants, and sprinkle thickly with powdered cinnamon. Roll up like a jelly roll; cut off slices two inches thick and stand on end in a deep pan well greased with lard. Shake cinnamon over the top and let rise again. When light bake in a very slow oven (thermometer 6) for nearly an hour, and turn out immediately on buttered plates.

Put sugar in greased pan before putting in buns. Let rise until light and bake in moderate oven for about 1 hour. Be careful that oven is not too hot.

This will make about two dozen cinnamon buns.

\author{
1 dozen large lively crabs \\ 1 cup vinegar \\ 1 tablespoon salt \\ \(1 / 4\) pound butter \\ 1 teaspoon (even) powdered mustard
}

1 teaspoon (heaping) black pepper
\(1 / 2\) teaspoon finely minced onion
1 teaspoon (even) minced parsley
Bread crumbs
Sprigs of parsley

Have ready a large pot on the range with the vinegar and salt in the bottom. Heat to boiling point and turn in the crabs. Steam them with the lid on until they turn a bright red when they are done and may be put out on a waiter to cool. When perfectly cold remove the outer shell, the sand bag and the lungs, or dead fingers, as the negroes call them. Scrape out from the shells all the green and yellow fat and put in a bowl, then pick out the white meat, being careful to avoid dropping pieces of shell into the meat. Crack the claws and pick out the meat, but the legs have too little in them to make it worth while to use them. Now add to the meat the butter, mustard, pepper, onion, and parsley. No salt must ever be added, as it causes the delicate crab meat to taste a little fishy. Wash carefully about 9 shells, and pack them with the meat, which should have been stirred very gently so as to avoid breaking the pieces too small. Brown some fine bread crumbs and sift on top and put the crabs in the oven to heat, but not to cook any more. Stick a small sprig of parsley in each before sending to table.

This is an original Southern recipe, over a hundred years old, and is the only one in which the dressing does not injure the true taste of the crab.

Rub butter and flour together, thin with a little milk and stir into the boiling milk until it thickens. If not smooth, mash through a sieve. Add the raw yolks of eggs. Mix a teaspoon of mustard with a little cold milk, stirring into the mixture with salt, a very little cayenne pepper, ground mace and grated nutmeg. The seasoning should be to taste. Into this stir the crab meat, adding more seasoning and milk if desired. It should be very moist. When cool, fill the shells, cover with rather fine crumbs, made from stale but not dry bread. Put into a hot oven at meal-time-only long enough to heat through and brown the crumbs.

\section*{PAN-BROILED OYSTERS}

Drain rather large oysters well. Put a large piece of butter into a flat frying pan. When the butter is very brown, hastily drop in enough oysters to lie flat on the bottom. As they brown, turn quickly, brown on the other side and remove to a dish, set in the oven, pouring the liquor from the pan into a bowl and save in warm place. Another piece of butter in the pan, brown and continue as above until all of the oysters are cooked. At the last, into the very brown butter sift enough flour to make a thick sauce, stir, add the butter saved in the bowl and a very little of the oyster liquor, if needed. Stir well until smooth, and season. Turn the oysters into this sauce and pour over well-toasted slices of bread. The sauce should be very brown (but not burnt) and thick, as a liquor oozing from the oysters tends to thin the sauce somewhat.

This is an original recipe.
Mrs. Robert P. Brown

\section*{BROWNED OYSTERS}
\begin{tabular}{ll}
2 tablespoons butter & \(1 / 2\) pint oyster liquor \\
2 tablespoons flour & Salt and pepper
\end{tabular}

Cook together in frying pan the butter and flour until brown; pour upon this the oyster liquor and stir until smooth and creamy; season to taste with salt and pepper, drop in oysters and cook until they are plump. A few drops of caramel will make sauce a rich brown. Serve on toast very hot.

Mrs. Frederick L. Seeger

\section*{THIBAULT OYSTERS}
\begin{tabular}{ll}
100 oysters & \(1 / 2\) tablespoon flour \\
\(1 / 4\) pound butter & 4 eggs (yolks) \\
\(1 / 2\) teaspoon parsley & Cayenne pepper \\
1 tablespoon butter & Salt
\end{tabular}

Drain the oysters as dry as possible.
Put \(1 / 4\) pound of butter in a saucepan; when it begins to bubble throw in your oysters with very finely chopped parsley, cayenne pepper, and salt to taste. Mix 1 tablespoon of butter and \(1 / 2\) tablespoon of flour until smooth, and stir into oysters. Add yolks of eggs, well beaten, and stir into oysters when almost cooked. The eggs will curdle if cooked too long. Serve on hot pieces of toast. This recipe can be cooked in chafing dish if desired.

\section*{SCALLOPED OYSTERS}
1 pint, or 30 oysters
2 cups crumbs
\(3 / 4\) teaspoon salt

Cayenne pepper
2 tablespoons butter
\(1 / 4\) cup oyster juice

Wash oysters by pouring cold water over them in a colander, remove pieces of shell by slipping each oyster through the fingers. Prepare crumbs by melting butter, adding crumbs, salt and pepper, and stir until crumbs are evenly yellow with butter. Place one-quarter of the crumbs on bottom of baking dish; then half the oysters; then the second quarter of crumbs and second half of oysters and on top the rest of the crumbs. Bake 30 to 40 minutes in one large dish; or 6 shells may be used, in which case double the quantity of buttered crumbs. Bake shells 15 minutes.

\section*{CHICKEN À LA KING}

Someone has said that if you can make a better mouse-trap than any one else, the world will wear a path to your door. If you can not make a better mouse-trap, perhaps you can concoct a more appetizing dish than any one else. Experience has shown that new menu delicacies are even more appreciated than are mousc-traps, and that they make your ncighbors flock in and tread a beaten path over your front lawn just as quickly. That is what Bill King, of Philadelphia, learned twenty years ago, when "Chicken à la King" first appeared on a hotel menu.

If Macadam is immortalized by a type of roadway, and Lord Raglan by a garment, and Sir Robert Pccl by the "Bobbies" and "Peelers," why should not William King, of Philadelphia, go down to fame upon the palatable, savory concoction of fowl and mushrooms, truffles, and peppers smothered in cream that wears his name?

Twenty years ago a patron of the old Bellevue Hotel dining room, a man who considered eating no frivolous matter, sat down at a table one day and scowled at the waiter. He scowled because he had exhausted the entire range of cookery, and at the moment he was convinced that not one of the thousand dishes with which he was familiar would appeal to him. He said as much to the waiter. The man bowed, requcsted fifteen minutes' grace, and disappeared into the kitchen.

He returned with the following, smoking hot, in a chafing dish: Small cubes cut from the white meat of chicken, fresh mushrooms, truffles, red and green peppers; cooked in cream.

When the bon-vivant had eaten the last morsel he sighed. He knew that he had done his part in assisting at the birth of a new gift from the gods.
"Who made this?" he demanded.
"Bill King," was the responsc. "He works in the kitchen."
The dish was "Chicken à la King."
Thus was it born. In the twenty years that have followed that day, its fame has spread from sea to sea, until it is known wherever men eat cooked food.

\section*{JELLIED CHICKEN}
\begin{tabular}{ll}
1 chicken & 1 tablespoon gelatin \\
1 lemon & 2 eggs (hard boiled) \\
Mace, salt, pepper & Lettuce
\end{tabular}

Boil an old chicken, about \(31 / 2\) pounds, until it is tender. Allow it to stand in a cold place for at least 24 hours, after which pick all the meat from the bones and cut into small pieces about the size that would be used in chicken salad, and pour the juice of the lemon over it; add a little mace and salt and pepper to taste.

Into \(1 \frac{1}{2}\) cups of the chicken stock place the bones of the legs and wings (thin bones only); let this come to a boil, then add gelatin. After the gelatin is thoroughly dissolved strain the liquid into a cold mould that has been dressed with slices of hard-boiled eggs, and turn into this the picked chicken and over the chicken the balance of the chicken stock. Stand away for several hours in a cold place. In serving, turn mould out on platter covered with lettuce leaves with either French dressing or mayonnaise.

The above will serve about 8 average portions.
Mrs. Henry Delaplaine

\section*{CHICKEN MOUSSE}

\section*{2 chickens \\ 2 tablespoons gelatin \(1 / 2\) cup milk}

\section*{1 pint rich cream}

Salt and pepper
Lemon juice

Remove the breasts of the cold chickens which have been either baked or stewed. Run them through the meat chopper, using the finest cutter. Put gelatin in milk, and dissolve by setting the cup in a pan of boiling water. Season a pint of the ground chicken meat with salt, pepper and some lemon juice. Mix it thoroughly with dissolved gelatin. Have in readiness a pint of rich cream (XX) which has been whipped very stiff, and fold it into the mixture. Place in a wet loaf pan or fancy mould, and chill thoroughly until the gelatin has hardened. When ready to use, turn out on a platter and serve with a good mayonnaise. If this is made carefully and permitted to stand long enough to become thoroughly stiff, the loaf may be sliced. A nice dish for Sunday supper.

This recipe for Chicken Mousse is one of our stand-bys and I can highly recommend it.

\section*{BEEF À LA MODE}

7 or 8 pounds beef 2 tablespoons drippings \(1 / 2\) cup sliced onion
\(1 / 2\) cup sliced carrots
\(1 / 2\) cup sliced turnips
Sprig of parsley

Have meat larded by butcher. Put drippings in large pot. When hot put in meat and brown on all sides by turning. This will take about one-half hour. Then dredge with flour and brown. After flour has browned place small plate under meat to prevent its burning, and pour on boiling water to half cover meat; add the onions, carrots, turnips and parsley. Cover pot tightly with lid so meat may cook in steam and simmer for 4 or 5 hours. Add more boiling water if necessary. When done place on hot dish and pour vegetables over and around it. Make a gravy of 1 tablespoon of butter and 1 tablespoon of flour browned, then add 1 cup of liquid strained from pot. Season with salt and pepper. Pour over meat, or serve separately.

\section*{BONED TURKEY}

\author{
(Fine-but very troublesome!)
}

Lay the turkey, breast down, on a cloth, and with a sharp-pointed knife bone as follows: Pass point of knife through the skin at neck and cut open straight down the back bone-then proceed to clear the flesh from the bones with knife and fingers until you come to breast bone, disjointing wings and legs as you proceed; then very carefully detach the breast bone from the flesh; be careful not to cut or tear the skin. When this is done you may remove the carcass with interior of turkey; after taking out the carcass, then holding the foot tightly, scrape the bone free from flesh of the legs to below the first joint, then cut the flesh from around the knuckles and pull the foot and the remainder of bone and sinews will come out together; then cut off the wings at first pinion, and the remaining bone is easily scraped away.

Have ready for stuffing: 2 pounds forcemeat, long thin strips of ham, veal and bacon. Put in the turkey, first a layer of forcemeat, 1 inch thick, then layer of veal, bacon, and strips of slightly cookcd ham, adding salt, pepper, and a little chopped onion. Proceed with these alternate layers until the bird is well filled, then pull over the flaps and sew up tightly, tie in a napkin, boil about 3 hours until tender, then brown in oven. A better stuffing than the above is: the forcemeat, ham, and instead of veal, the meat of a pair of prairie hens, adding a few truffles.

I always serve this hot. If it is to be served cold, it must be pressed by weight before being taken out of the napkin.

Sclect a flne ham (not shoulder) weighing about ten pounds. Scrub thoroughly and soak over night in cold watcr. Put on to boil in clear cold water till tender, about 3 hours or more; test with fork. It improves the flavor to boil with it a small picce of onion, a bay leaf and sprig of parsley. When done let it stand in the water in which it was boilcd till cool, then remove the skin. Score the fat into squares and stick a clove in each one. Cover with brown sugar and bake until wellbrowned, not quite an hour. Baste three or four times, adding a little lemon juice to the basting. Put into a ehafing dish the currant jelly, mustard and butter. When it is melted and thoroughly mixed, add as much sherry as you like-more or less aecording to taste. Just before serving, put in your ham, which has been first sliced very thin and then shredded. Cook just long enough for the ham to get hot.

I use about \(1 / 2\) cup of sherry and \(1 / 2\) pound of ham to this amount of sauce.

This is one of my housekeeper's reeipes. She makes everything she attempts most delicious! When I say delieious, I mean the quality which a Philadelphian would consider delicious!

\section*{TO ROAST BEEF HEART WITH SAGE AND ONIONS}
\begin{tabular}{ll}
1 beef heart & 3 ounces bread crumbs \\
2 ounces onion (boiled and shredded) & 1 ounce sage
\end{tabular}

Soak, elean and trim a heart; make a stuffing of the onion, sage, and crumbs seasoned with pepper and salt, and fill the eavities from which you have eut out the lobes; sew it up and roast before the fire for 4 hours, basting it much. It must be served with good brown gravy and apple sauce. Well worth trying.

\section*{CALF'S LIVER IN A CHAFING DISH}

Wash it; eover it with boiling water and let it simmer for 3 or 5 minutes. Stand away until ready to cook it in the chafing dish. Cut it up into small pieees and season with salt and pepper. Put a little butter in the chafing dish and then the liver. Add a teaspoon of hot water and cook about 5 or 6 minutes. Then add a little cream or rieh milk; let it boil 2 or 3 minutes and serve.

The yolk of an egg beaten up and added just as you take from the fire makes it particularly nice, but be sure not to cook it after the egg goes in more than to get it stirred through well.

If you use wine, two tablespoons of sherry added as you take it from the fire improves it.

Miss Virginia Hartshorne

\section*{BAKED SWEETBREAD}

Wash well in cold water, leaving the sweetbrcad whole, then drop into boiling water and boil until tender. Put in cold water to harden, pull out the strings and bits not good to eat, divide the sweetbread as little as possible. A piece of veal boiled with the sweetbread improves it and makes it go further. Save the water the sweetbread is boiled in for the dressing.

Put the sweetbread into a platter or small baking dish after dipping in egg and fine bread crumbs and seasoning with pepper and salt. Put bits of butter on top and bake to a light brown; pour over it the dressing, which must be very hot. Serve in the dish in which it is baked.

\section*{Dressing for Baked Sweetbreads}

Use the water in which the sweetbreads wcre boiled, add a piece of lemon peel and boil down to a small bulk, thicken with flour (or cornstarch) and buttcr and flavor with lemon. Make it quite tart-about half a lemon to a pair of sweetbreads.

\section*{CALF'S HEAD (TERRAPIN STYLE)}
1 calf's head
\(3 / 4\) pound calf's liver
2 hard-boiled eggs (yolks)
\(1 / 2\) teaspoon flour

Get a calf's head and \(3 / 4\) pound calf's liver. Wash the head and take out the brains, then put the head in a pot with just enough cold water to cover \(i\). Let boil till tender ( \(13 / 4\) hours is generally long enough); it must be tender enough for the meat to come easily off the bones. Cut the meat very fine, skin the tongue and cut it and the liver up. Put all back in the same water and boil \(3 / 4\) of an hour, having first seasoned to taste with a little salt, cayenne pepper and \(1 / 2\) teaspoon of ground cloves. Then mash the yolks of eggs fine, add flour and butter; mix into a smooth paste and put in with the meat and let it continue boiling till it gets quite thick. Just before dishing, stir in a teacup of wine.

The Misses Esherick

\section*{MOCK TERRAPIN-EXCELLENT}

1 calf's head \(1 / 2\) cup soup stock 3 tablespoons butter 1 tablespoon flour 1 cup milk

2 hard-boiled eggs, chopped up
1 cup cream
Sherry wine
Red pepper
Salt
Cut one quart of the meat in small pieces. Put the meat and stock into a kettle and let simmer, then add eggs. Rub the butter and flour together and stir into the milk; let them come to a boil, then add the meat. Season with red pepper and salt, add just before taking from the fire a cup of cream. When ready to serve add sherry wine to taste.

Of course you boil the calf's head till it is done before beginning to use it.

\section*{TO STEW A DUCK WITH CHESTNUTS}

Bone the duck and fill it with a forcemeat of 2 parts lean roast veal, \(1 / 4\) as much finely shredded beef suet, the yolks of 2 hard-boiled eggs, some mushrooms, young green onions and parsley to fill up, seasoned well with pepper and salt, and well moistened with cream. Lay it in a stewpan with a whole onion and a bunch of herbs and cover with bouillon or gravy; stew gently for an hour. In the meantime make a ragout of 30 or 40 roasted chestnuts, seasoned only with a teaspoon of salt, and stewed to a pulp in \(1 / 4\) pint of white stock and 2 glasses of white wine. Dish the duck and cover with the chestnuts in the sauce.

1 teaspoon (heaping) onion & 2 teaspoons (even) minced parsley \\
\(1 / 2\) teaspoon (even) salt & 1 cup of stock
\end{tabular}

Whiten and parboil 4 pairs of sweetbreads and arrange them in a baking pan so as not to touch each other. Mix together with a cupful of stock, the onion (chopped very fine), salt, pepper and parsley. Pour this evenly over the sweetbreads and bake 20 minutes in a hot oven. They must be watched to see that they do not burn suddenly. Serve very hot on a platter surrounded by peas. Cook them just before they are to be served as they should not be allowed to stand long.

This recipe has long been used in my mother's and my own family, and always meets with favor. Mrs. Charles MacLellan Town

\section*{CANVAS BACK DUCK}

Pick, draw and singe like a chicken. Wipe thoroughly inside and out with a damp cloth (avoid washing or soaking, as it depreciates flavor). Cut an onion in half and with bleeding side of one half rub the inside thoroughly and yet lightly; with the other half rub the outside of duck all over lightly. Truss the wings and legs close to the body. Do not stuff the duck, but place a piece of butter the size of a walnut in each with three cranberries. Baste well with melted butter and a little flour to brown. Place in a baking pan, add 1 teaspoon of salt and \(1 / 4\) cup of boiling water to the pan and a small piece of butter. Put into a very hot oven and bake for 18 to 20 minutes, or, if wanted better done, 25 minutes, watching carefully the progress of the baking and basting well with its own gravy 4 or 5 minutes.

The savory odor and tenderness of the duck arc lessened if cookcd longer than 20 minutes by the over-doing of the juices.

\section*{SWEETBREADS}

Put them in water for 1 hour. Boil in acid water 20 minutes (using a few drops of lemon or vinegar). Plunge in cold water, remove all fat, loose skin, etc. Dredge with salt, pepper and flour. Put in baking dish, brush with melted butter, allowing 2 tablespoons to each swcetbread. Cover with thin slices of bacon and bake in hot oven 25 minutes, the last 5 without the bacon.

Miss Caroline C. Hoffman

\section*{MOCK TERRAPIN}
(Without wine)
Cook calf's liver as usual, until done. Cut into rather small pieces. Wipe the pan well and put into it a large lump of butter-the size of an egg, or more, for 1 pound. In a bowl, mix the meat with 2 hard-boiled eggs cut into very small pieces or chopped, \(1 / 2\) teaspoon of dry mustard, salt and a very little cayenne pepper. It should be pretty heavily seasoned. Stir this into the butter, dust thickly with flour and brown. Pour about 1 cup boiling water over the meat, stirring quickly and well.

Cold roast veal, cut into small pieces, may be used in the same way, but in this casc the mustard should be mixed with a little vinegar and the gravy should not be allowed to brown.

Sweet potatoes make delicious "chips" and "shoestrings." They should be sliced thin, or cut in slender strips, just as is done with white potatoes for a similar use, dropped in cold water for a few minutes, and fried in deep fat. A slight sprinkling of salt while they are warm improves them.

Let them get tender but not soft, and repeat the process till all the peaches have been cooked in the vincgar. Have ready a tall stone jar, clean and well scalded. As the peaches cook lift them into the jar with a strainer ladle. When all the peaches have been put into the jar pour the hot vinegar over them, drop in the spice bags and lightly cover top of jar with a napkin. The vinegar must cover the fruit. When cold, cover with a clean cloth and put on the lid.

This keeps indefinitely and is a most palatable relish with roast meats. Mrs. H. S. Prentiss Nichols

5 small cabbages
1 red pepper
5 green peppers
4 tablespoons salt

1 teaspoon mustard seed
1 teaspoon celery seed
1 teaspoon whole allspice
1 dozen whole cloves

\section*{Vinegar}

Chop together cabbages and peppers; sprinkle the salt over them and let the mixture stand all night. Do not drain, unless a very little if the liquor is excessive. Sprinkle over the cabbage and peppers, the next day, the mustard seed, allspice, celery seed, and cloves. Mix well, then pour cold vinegar over all. The quantity of vinegar cannot be exactly estimated, varying from a little over a pint to nearly a quart, according to the amount of liquid covering the cabbage. Taste is the only guide, as too much vinegar will destroy the flavor of the pickle. Put up in stone or glass jars.

This old pepper hash recipe was given to me by the wife of my father's German gardener.

\section*{ROYAL ICED CABINET PUDDING}

\author{
1 pound candied cherries \\ \(1 / 2\) pound candied green gages \\ 1 pound stale sponge cake \\ \(1 / 2\) pound sifted sugar \\ 1 pint rich cream
}

1 pint milk
1 large tumbler good sherry
6 eggs
1 vanilla bean
1 box gelatine

Take a mould with cover and place in a pan of ice and water until very cold. Put gelatine to soak. Put milk on to boil. Whip yolks of the eggs light and add sugar; strain gelatine into milk just as it boils. Then add the eggs and sugar. See that it docs not curdle. When the custard is cool, add cream, which must have been whipped stiff; add vanilla bean. Then take your mould and decorate as you please. Put in a small quantity of custard. Cut your cake, soak it in the wine, cut your green gages in half and stone them. Make a layer of the sponge cake, then one of the cherrics, then one of the green gages and custard; and continue thus until the mould is filled. Then ice for 3 hours at least. Serve as you would ice cream. Take the whites of the eggs, whip them with 1 cup of white sugar. Surround the pudding with it and decorate with cherries and angelica. The dish should be iced before turning the mould out.

A sauce may be served with it as one might with ice cream; if you do, the wine used as a foundation for it should be the same as that used to soak the cake.

This dessert, when successfully made, is luscious. It is a recipe from our famous Twelve Dollar Dinner Club, when twelve well-known women, Mrs. J. Dundas Lippincott, Mrs. Isaac 'J. Wistar, Mrs. Clarence H. Clark, Mrs. Isaac Norris, Mrs. William Hunt, Mrs. William Ingham, Mrs. J. W. Pepper, Mrs. John T. Newbold, Mrs. Robert Toland, Mrs. Henry E. Drayton, Miss Susan Stevenson and myself, dined together for nine years, at one dollar apiece. At the end of the meal the hostess read the bill of fare. There was a rule that all ingredients should be included in the dollar. The dinner must cover the usual courses. If the hostess went over the dollar she was asked for her photograph and her resignation. Not only were the rules adhered to, but the dinners became so elaborate that a limit was put to the courses. Ingenuity was such that we were threatened with softening of the brain. This pudding made an extraordinary hit when first served.

\(1 / 2\) cup rice
1 quart milk
1 teaspoon (scant) salt
\(3 / 4\) cup sugar
\(1 / 4\) nutmeg (grated)
1 cup seedless raisins

Boil rice in plenty of water for \(1 / 2\) hour. Drain, and add the other ingredients (except the raisins, which go in a few minutes before the pudding is done-otherwise they cause the milk to separate). Place all in a shallow baking dish and cook on top of stove until well thickened, stirring frequently to prevent from sticking. When about done put in the raisins and place in a hot oven to brown. Serve icy cold. This quantity will serve 8 persons.

1 quart flour
\(1 / 2\) pound lard

Sift flour into a bowl, cut into it the lard, butter and salt; mix thoroughly. Then stir in ice-cold water, just enough to form a dough (about \(1 / 2\) small glass), using a silver knife to stir. Use your hands, in mixing, as little as possible, after adding the water. Flour the pie-board, take about half the dough for the lower crust; and roll it out thin, using very little flour in rolling out. The rest of the dough is to be rolled very thin for the top crust.

Put into a preserving kettle, mash just enough to make a little juice in the bottom of the kettle. Cover the kettle and put on a slow fire till all the skins are broken and the fruit is soft enough to strain. Strain through a bag hung out of a draft, in a moderately warm place. Measure the juice, and to every pint of juice weigh out a pound of granulated sugar. Put the juice into a clean uncovered kettle, and after it comes to the boiling point, if the quantity is large let it boil hard 20 minutes. When the juice is put on to boil, put the sugar in a clean roasting pan (it is nicer to line it with white paper) and put it in the oven. When the juice has boiled 20 minutes and the sugar is vcry hot, pour the sugar into the boiling juice. It will hiss and instantly dissolve. Let the mixture boil up without stirring, and then try a little on a saucer. If it wrinkles as you push it together the jelly is done. Remove from the fire immediately. Have the glasses very clean and sitting on a tray covered with a warm wet cloth. Put the jelly into the glasses with a pointed ladle and set aside to cool. When cold cover with paraffine, and then the metal tops.

Perfect jelly should be clear, smooth and just firm enough to quiver but not fall when turned out of the tumbler.

If this recipe is exactly followed, it cannot fail. I have made it year after year, and it has never failed.

Gooseberries can be used by the same recipe, and make a delicious jelly to serve with cream cheese and salad.

\section*{CALF'S FOOT JELLY}

1 pound sugar
1 pint Lisbon wine
3 lemons
Boil a set of feet in water and let cool; add the whites of eggs, hot water, sugar, wine, juice of 3 lemons, and half of the rind grated fine. Run the jelly in a flannel bag before the fire-a good plan is to hang the bag between two chairs and let it drip into the mould.

Mrs. George F. Klemm

\section*{CRANBERRY JELLY}

\section*{1 quart cranberries \\ 1 pint water}

1 pound sugar
1 pint boiling water
Put on the cranberries with the water, cook until soft, then pass through a strainer with the boiling water. Add the sugar and boil 20 minutes. This always jells. Miss G. B. McIlmenny

\section*{C. O. R. R. JELLY}

1 quart currant juice
1 quart red raspberry juice

1 pound raisins (stoned)
2 oranges
5 pounds sugar

Cook together \(3 / 4\) of an hour. Cut rind of orange in small pieces, use whole of orange. It takes about \(41 / 2\) quarts of red raspberries, or 4 quarts of currants for a quart of juice. Mrs. James Mapes Dodge

\section*{MINT JELLY}

4 teaspoons vinegar
1 teaspoon essence of spearmint
Boil apple juice and sugar as for any jelly, and just before taking from the fire add vinegar and spearmint, and color to liking with Standard Color Paste-"Leaf Green." Use Blush apples or those which will make light-colored jelly. Mrs. J. Howard Gaskill

\section*{SPICED CRABAPPLE JELLY}
1 peck crabapples
5 cups vinegar
Sugar

1 cup mixed whole spices (cloves, cinnamon, allspice, tied in bag)
Water to nearly cover
Stew until soft, strain, boil up and add equal amount of sugar, then boil until it jellies. Delicious served with meat.

Mrs. Frank H. Burpee

\section*{GRAPE JAM}

Wash bunches of grapes. Pulp them, cook skins until soft; cook pulp separately until soft enough to press from seeds through the colander. Put skins and pulp together; to every cupful add \(1 / 2\) cup of sugar and cook slowly for \(1 / 2\) hour. It depends on your taste how you like it, jellied or more so, when to remove from the stove.

Mrs. C. L. Hutchinson

\section*{HEAVENLY JAM}

\section*{ORANGE MARMALADE}

4 large oranges 1 lemon
1 grapefruit
Slice on slaw cutter, skins and all, removing seeds; weigh and add three pints of water, to every pound of pulp; let stand over night; then boil until the skin is clear (about \(1 / 2\) hour), and let stand over night again. Then weigh and add 1 pound of sugar to 1 pound of pulp, boil down to required thickness.

Mrs. Henry C. McIlvaine

\section*{ORANGE MARMALADE}

Cut in halves 12 large Seville oranges; remove seeds and put in a basin, covering with 1 pint of boiling water. Let stand over night. Squeeze the orange juice in a basin with as much of the pith as will come away. (The pith is all used as well as the peel.) To every pound of fruit allow 3 pints of cold water and stand over night. The next day add the strained water from the pips and boil down until the peel is soft like marmalade. Now weigh the fruit again and to every pound of fruit add 1 pound of loaf sugar (granulated sugar will do); boil again 40 minutes, pour into jars or glasses and tie down.

Mrs. H. J. Kaltenthaler

\section*{ORANGE MARMALADE}

2 oranges

2 lemons

\section*{2 grapefruits}

Cut very thin, using all save sceds and hard centers. Add twice as much water as you have fruit by measurement. Stand 24 hours. Second day boil 10 minutes and again stand 24 hours. Third day add 1 pint of sugar to every pint of fruit. Boil \(1 \frac{1}{2}\) hours, or until done.

Mrs. Lewis M. Johnson

\section*{ORANGE MARMALADE}

6 oranges 4 lemons

Slice as thin as possible, leaving out nothing but seeds. Weigh and add 3 pounds of water to 1 pound of fruit. Let stand 24 hours. Boil until rinds are tender. Let stand another 24 hours. Add sugar pound to pound. Boil until it jellies. Each boiling will take \(1 / 2\) to \(3 / 4\) hour. This quantity makes about 15 pints.

Miss Annie Heacock

\section*{GRAPEFRUIT MARMALADE}

1 large grapefruit

\section*{1 large orange}

Mrs. James A. Develin

\section*{AMBER MARMALADE}

1 grapefruit
1 orange
1 lemon
Cut grapefruit, orange and lemon in small sections; remove seeds and tough parts; then put in meat grinder; grind, saving all juice. Measure the fruit in a cup, and add to it three times the quantity of water. Now measure it again, and add cup for cup of sugar. Put it over fire and boil steadily about 2 hours, until it jellies. This quantity always makes 12 jelly glasses, and sometimes more. The product should have a limpid appearance, quite different from the mushy look of some marmalades. Stir as little as possible during the 2 hours or more of cooking.

The making of the cake, the heating of the oven and the baking.-Troilus and Cressida.

A general rule for making cake is first to measure accurately. Mix in bowl (not tin) and use a wooden spoon. Beat yolks and whites of eggs separately unless otherwise directed in the recipe. Cream the butter before adding sugar, beat them together very light before adding eggs. The oven must be ready as soon as cake is mixed. Do not jar it by opening oven door. Be sure it is done, then turn out on a sieve and leave till cold.-(Ed.)

Flour the fruit and mix all together except the citron. Put in the pan in layers, first a layer of batter, then one of citron, sliced very thin; the last layer must be of batter. Bake 5 hours in slow oven. Half quantity takes 3 hours to bake, or they can be baked at a baker's shop very perfectly at slight cost.

1 nutmeg (grated)
\(1 / 4\) ounce mace
\(1 / 4\) ounce cinnamon
\(1 / 2\) ounce cloves
\(1 / 2\) gill Jamaica rum
\(1 / 2\) gill brandy
Stem and seed the raisins, pick over sultanas, shred the orange and lemon peel and citron very fine, cut remaining fruit into tiny dice, beat the butter to a cream, add sugar gradually and give a thorough beating. Beat eggs (without separating) until creamy, add them to butter and sugar, then gradually add the flour; beat well. Mix all the fruit together and flour it well, add the spices to the batter, add the fruit, mix thoroughly, add the rum and brandy, mix again. Line around straight-sided cake pan with buttered paper, turn in the mixture; bake in a very slow oven \(41 / 2\) hours; when done take from pan and let stand over night to cool; next day mix 1 pint champagne, \(1 / 2\) pint best brandy, 1 gill strawberry syrup together, stand cake in a stone butter pot and pour over it the brandy mixture, paste top of pot over with paper, put on cover, stand in cool place one month; at the end of that time remove paper, turn the cake, paste top over again with paper, put lid on and let stand another month and it is ready for use.

\section*{HICKORY NUT KISSES}

1 pound confectioner's sugar
1 quart hickory nuts

Beat eggs very littie, only enough to mix them. Put in all the sugar at once (powdered sugar will do if sifted as fine as flour) and beat until very stiff and stands alone. Fold in nuts that have been broken in half; bake in moderate oven. Drop on greased paper-1 spoonful enough for one. When it cracks open and pops up, it is done and will be creamy. Take from oven at once.

Drop a small teaspoonful of the batter for each wafer on the well-buttered pan, and allow plenty of space between, as they spread. \section*{NEW AMSTERDAM MOLASSES CAKE}

1 cup molasses & 1 cup (scant) solid sour milk \\
1 egg & 1 teaspoon (even) bicarbonate of soda \\
\(1 / 2\) cup butter and lard mixed (mostly & \(21 / 2\) cups flour \\
butter) & 2 teaspoons ground ginger \\

& \(1 / 2\) teaspoon ground nutmeg
\end{tabular}

Cream your butter well, then add egg without beating; stir well together, and then add molasses. Now take sour milk, in which you have dissolved your soda before you began to mix (this you should set in a saucer, as it is liable to foam up over the cup), put all in, both from saucer and cup, using some of your flour alternately with it until all is used; lastly your spices. If spices are not liked you can add 1 scant cup of well-mashed currants, which should be well-floured with about 1 tablespoon of extra flour. Bake in a moderate oven, either in small patty pans, long shallow pans, or a turk's head pan with a tube in the center. If in the latter, serve hot, fill the hole in the center with whipped cream and serve with a hot chocolate saucc as a desscrt.

1 pound sugar
1 pound flour
\(1 / 2\) pound butter (flavored with lemon) 6 eggs

Roll very thin, brush with egg and put granulated sugar, pecan nut and cinnamon on top. Bake in quick oven.

These cakes will keep indefinitely in tin boxes, and are fine to serve with tea.

Mrs. Harrison Souder

\(1 / 2\) pound pulverized sugar
\(1 / 2\) pound almonds
2 ounces sugar

Beat the whites of eggs with pulverized sugar for 15 minutes. 1 tablespoon (large) flour
\(3 / 4\) cup cream
\(1 / 2\) cup (scant) butter

Boil until very thick. Stir all the time (about 10 minutes). Spread on cake while hot. Mrs. Walter C. McIntire

\(11 / 2\) cups sugar
8 tablespoons milk

8 squares chocolate
Vanilla
3/4 pound English walnuts
Boil sugar, milk and chocolate 8 minutes. Set in a dish of cold water and beat until thick enough to spread, then add vanilla and walnuts broken in small pieces. Spread on loaf of thick plain cake.

Mrs. Frank H. Burpee

\section*{A GOOD ICING FOR CAKE}

Two tablespoons of orange juice and the grated rind of the orange. Three cups of 4 X sugar. Mix the juice and the sugar, and pour boiling water on the whole-a little at a time, until it is the consistency of boiled icing-or a thick custard. Pour over the cake and spread over-that's all.

Mrs. Charles H. Woolley

\section*{Candies}

The daint est last, to make the end most sweet.-Richard II.

\section*{NUT CANDY}

2 cups granulated sugar \(1 / 2\) cup water

2 teaspoons (about) vinegar Nuts

Mix sugar, water and vinegar; boil without stirring, until brittle when dropped in cold water. Butter shallow pans and pour over nuts (peanuts, shellbarks, walnuts or any nuts you may have). It is well to let the nuts get warm before pouring in the mixture.

Mrs. J. Gibson McIlvain

\section*{NUT CHOCOLATES}

Grate or cut into square pieces a cake of Baker's (bitter) chocolate. Add to this about \(1 / 2\) cup of water and melt over a boiling tea kettle. When the chocolate is thoroughly melted remove from over the kettle, and stir in confectioner's sugar (or a fine pulverized sugar will do) until it is the right consistency to be formed into balls in the fingers. This is much like the French candy and when formed into balls and put between two English walnuts, is very good.

Boil these until they are clear (about 8 or 10 minutes). Then drain again. Put them in a self-sealing jar. When you wish to use them, roll in sugar.

This I can vouch for, as it is one of Sophie's recipes.

\begin{tabular}{lc} 
& PURE \\
& GRAPE JUICE \\
10 pounds Concord grapes & 2 quarts water \\
& 5 cups sugar
\end{tabular}

Pick grapes off stem and wash; place them in kettle with water and boil until skins are well broken. Take off and drain, then press the skins until juice is all extracted. Return juice to kettle with sugar and boil until sugar is dissolved, skimming off anything that rises to the surface. Bottle and seal while hot. If not sweet enough to suit taste, more sugar can be added.

\section*{GRAPE JUICE}

\section*{3 quarts Concord grapes}

\section*{1 quart water}

Sugar
Stem and wash grapes before measuring. Heat thoroughly and strain. To 1 quart of juice add 1 cup of sugar. Use small cup if grapes are very sweet. Let juice and sugar come to a boil, then bottle and seal with wax.

Mrs. Edwin F. Keen

\section*{MISS SALLY WHEELER JOHNSON'S LEMONADE}
(This recipe is always used at the Meetings of the Site and Relic Society of Germantown)
\begin{tabular}{lc}
5 dozen lemons & 1 pineapple (cut in fine slices or \\
10 pounds granulated sugar & small pieces) \\
\(1 / 2\) dozen oranges (sliced with the peel & or \\
left on), or & 1 box strawberries (in season)
\end{tabular}

Dissolve the sugar in boiling water some hours before wanted; stir thoroughly, putting in some of the lemon peel cut very thin. Add the lemon juice when cool, and the fruit and ice when ready to serve. Do not put all the syrup in the lemon juice at once, as it may be too sweet if lemons are not ripe and juicy.

The fruit can be used to suit individual taste, one or more kinds used at a time, as preferred.

Miss Anna M. Johnson

\section*{TEMPERANCE PUNCH}
\begin{tabular}{ll}
6 oranges & 1 bottle white grape juice \\
2 lemons & 2 bottles ginger ale \\
1 teaspoon crushed mint & Sugar
\end{tabular}

Mix the juice of oranges and lemons in bowl with crushed mint (or a bunch of mint). Put juice in punch bowl with large lump of ice. Add grape juice; sugar to taste. Before serving, add ginger ale. Serve with strawberry or small squares of pineapple in glass. As the ice melts add more ginger ale. If the punch is not sweet enough add more sugar.
(Warranted to put no one under the table.)
Miss Anne Hollingsworth Wharton

\section*{GRAPE JUICE}

Secure good juicy grapes (preferably the Concord), pick and stem them, place in a preserving kettle and barely cover with water. Boil until tender, then mash and strain. To every gallon of juice add 1 cup of granulated sugar. Return to the fire and let boil for 3 minutes and then place in bottles and seal. Drink with pleasure.

Mrs. Thomas Biddle Ellis

1 quart brandy & 1 ounce powdered nutmeg \\
2 pounds soft white sugar & 1 ounce powdered cloves
\end{tabular}

Boil the juice with the sugar and the spices for 15 minutes. Take from the fire and add the brandy. When cold, strain, bottle and seal. The spices should be placed in a bag, in order not to discolor the juice. Mrs. Sarah Walker Dungan

4 quarts dandelion blossoms (without & 2 lemons \\
stems) & 4 quarts lukewarm water \\
4 oranges & Sugar \\
& Yeast cake
\end{tabular}

Stand the water and dandelions, thin peel of lemons and oranges, 60 hours. Squeeze out and strain. Put 4 pounds of sugar to every gallon of above. (In the meantime you have taken the peeled oranges and lemons and rolled in oiled paper to keep them over the 60 hours.) Cut oranges and lemons up fine and to every gallon put a broken-up yeast cake and the sugar, oranges and lemons and let stand 36 hours. Strain and bottle, leaving corks off until done fermenting.

Mrs. Harry A. Hornor

\section*{ORANGE CORDIAL}

\section*{36 oranges}

1 gallon rectified alcohol

White sugar

Use the skins of the oranges, peeling very thin. Put in a large jar or vessel and pour on alcohol and water. Cook and let stand for 7 weeks, stirring or shaking thoroughly every day. Strain and measure the juice, and to each quart of liquid add the syrup made from boiling 1 pound of white sugar, to which a little water has been added. Add the syrup hot, then bottle and cork.
